## BERATUNG & BUSINESS COACHING

### COMPANY REFERENCE

EU Glass have worked with Alex Von Mezynski for several years now he has offered our company great support for the strategic market development for the UK business.

Skills shown by Alex and his team have been paramount for the success of our business and continued growth we see year on year working with them.

More recently my team have undergone a serious of Business Coaching event arrange by Alex Von Mezynski and we are already seeing great benefit from this service.

We will continue to work with the guys to keep their advice and training fresh and relevant.

I am so impressed with how Alex has taken the time to get to know me as the director and more importantly my company and uses his key skills to help us grow.

I think the biggest asset of using Alex is that we have a second eye looking at our business and this can steer us away from mistakes.

I would be happy to discuss with any prospective client of Alex how we have been supported.

Kind regards

David Wyatt  
Owner / Director
